

## Index of Contributors

**A**nderson, M. J., 213-233

**B**acklund, E.-O., 105-126

Bayer, S. A., 163-172

Behan, P., 13-18

Björklund, A., 53-81

**C**ork, L. C., 35-51

Cotman, C. W., 83-104

**D**uffy, F. H., 19-34

**F**reed, W., 105-126

**G**age, F. H., 53-81

Geschwind, N., 1-11, 13-18

Graziadei, P. P. C., 127-142

**H**errera-Marschitz, M., 105-126

Hoffer, B., 105-126

**K**aplan, M. S., 173-192

Kitt, C. A., 35-51

**M**onti Graziadei, G. A., 127-142

**N**ieto-Sampedro, 83-104

Nottebohm, F., i-ii, 143-161

**O**lson, L., 105-126

**P**rice, D. L., 35-51

**R**akic, P., 193-211

**S**eiger, Å., 105-126

Strömberg, I., 105-126

Struble, R. G., 35-51

**W**alker, L. C., 35-51

Waxman, S. G., 213-233

Whitehouse, P. J., 35-51

# Subject Index

**A**drenal medullary grafts, 117-122  
Adulthood, neuronal replacement in,  
143-159

**A**ging  
neurologic studies of transmitter systems  
in, 35-44  
nonhuman primate models of, 40-41  
structural and chemical changes in, 36-40  
Aguayo, Albert, i  
Altman, Joseph, i  
Anderson, Marilyn J., ii  
Assessment for premature infant behavior,  
31-32

**B**ayer, Shirley A., iii  
BEAM, *see* Brain electrical activity mapping  
Behan, Peter, ii, iii  
Björklund, Anders, iii  
Brain electrical activity mapping  
method of neurophysiological diagnosis,  
19-33  
normative aging compared with dementia  
by, 30-31  
progress and prospects, 32-33  
schizophrenia studies using, 29-30  
use in identification of covert epilepsy, 28  
Brain lesions, mechanisms of change after,  
1-11

**C**entral nervous system, recovery of func-  
tion after trauma, 83-101  
Congenital anomalies, role of fetal environ-  
ment in, 13-17  
Cortical cholinergic deficiencies, 41-42  
Cotman, Carl W., ii, iii

**D**ementia  
compared with normative aging by brain  
electrical activity mapping, 30-31  
neurologic studies of transmitter systems  
in, 35-44  
structural and chemical changes in, 36-40  
Diagnosis, neurophysiological, BEAM  
method for, 19-33  
DNA synthesis in the brain, 193-208  
Duffy, Frank H., iii  
Dyslexia  
characteristics of brain dysfunction associ-  
ated with, 26-28  
role of fetal environment in, 13-17

**E**lectroencephalogram  
topographic mapping and interpretation  
of, 21-22  
traditional interpretation, 19-21  
Epilepsy, covert, use of brain electrical activ-  
ity mapping (BEAM) in identification  
of, 28

**F**etal environment, role of, in various dis-  
orders, 13-17

**G**age, Fred H.  
Geschwind, Norman, ii, iii  
Grafts  
adrenal medullary, 117-122  
intraocular, 110-112  
neural, 42-43  
substantia nigra, 115-117  
Graziadei, P. P. C., iii

**H**ippocampus, neural production in the,  
163-171

**I**mmune disorders, role of fetal environ-  
ment in, 13-17  
Institute for Child Development Research, ii  
Intraocular grafts, 110-112  
Intraocular transplantation, 107-110

**L**esions, brain, mechanisms of change  
after, 1-11

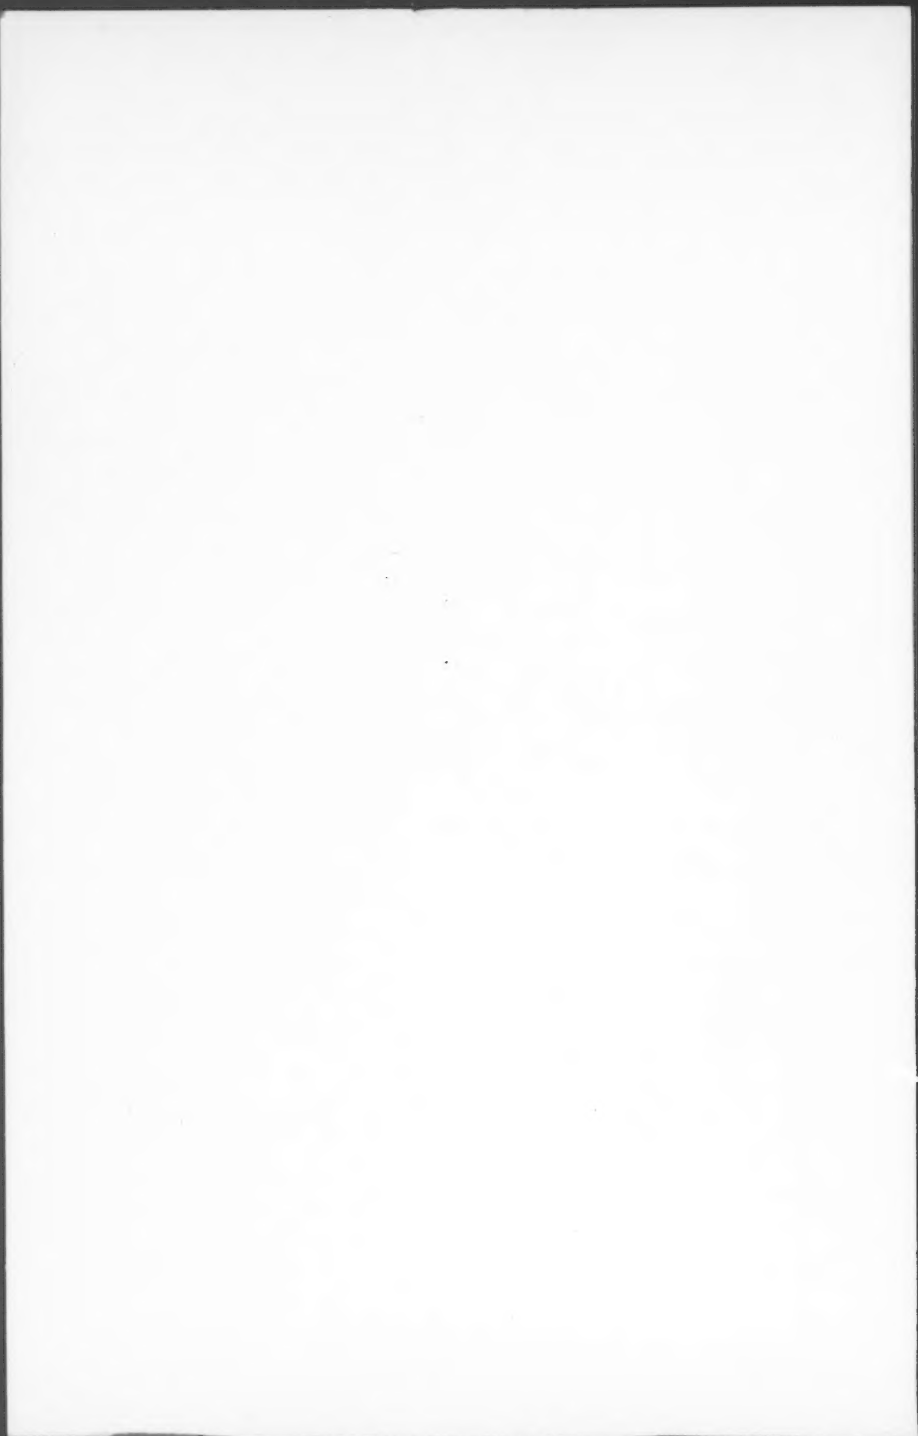

**N**eural grafts, 42-43; 53-76  
Neural replacement in adulthood, 143-159  
Neurogenesis in spinal cord, 213-231  
Neurons  
formation and turnover of, 173-187  
olfactory sensory, neurogenesis and plastic-  
ity of, 127-139  
production in hippocampus and olfactory  
bulb, 163-171  
Neurophysiological diagnosis, BEAM  
method for, 19-33  
Nieto-Sampedro, Manuel, ii  
Nigrostriatal dopamine deficiency, 42  
**O**lfactory bulb, neural production in,  
163-171  
Olfactory sensory neurons, neurogenesis and  
plasticity of, 127-139  
Olson, Lars, iii

- P**arkinson's disease  
  animal models of, 114-115  
  transplantation in, 105-123  
  treatment strategies in, 113-114  
Pattison, Jane, ii  
Pattison, Peter, ii  
Premature infants, assessment of brain function in, 31-32  
Presenile dementia, *see* Dementia  
Price, Donald L., iii
- R**akic, Pasko, iii  
Replacement, neuronal, in adulthood, 143-159
- S**chizophrenia, studies utilizing brain electrical activity mapping, 29-30  
Senile dementia, *see* Dementia

- Senile plaques, 36-37, 40  
Significance probability mapping (SPM), 23-26  
  assessment of brain function in premature infants, 31-32  
Spinal cord, neurogenesis in, 213-231  
Substantia nigra grafts, 115-117
- T**opographic mapping, EEG interpretation and, 21-22  
Transmitter systems, neurobiological studies of, 35-44  
Transplantation  
  intraocular, 107-110  
  Parkinson's disease and, 105-123

- W**axman, Stephen G., ii

HOPE FOR A NEW NEUROLOGY<sup>a</sup>

Editor

FERNANDO NOTTEBOHM

---

CONTENTS

---

Preface. By FERNANDO NOTTEBOHM.....	i
Mechanisms of Change after Brain Lesions. By NORMAN GESCHWIND.....	1
Dyslexia, Congenital Anomalies, and Immune Disorders: The Role of the Fetal Environment. By PETER BEHAN and NORMAN GESCHWIND.....	13
The BEAM Method for Neurophysiological Diagnosis. By FRANK H. DUFFY.....	19
Neurobiological Studies of Transmitter Systems in Aging and in Alzheimer-Type Dementia. By DONALD L. PRICE, CHERYL A. KITT, ROBERT G. STRUBLE, PETER J. WHITEHOUSE, LINDA C. CORK, and LARY C. WALKER.....	35
Neural Grafting in Animal Models of Neurodegenerative Diseases. By ANDERS BJÖRKLUND and FRED H. GAGE.....	53
Progress in Facilitating the Recovery of Function after Central Nervous System Trauma. By CARL W. COTMAN and MANUEL NIETO-SAMPEDRO.....	83
Transplantation of Monoamine-Producing Cell Systems <i>in Oculo</i> and Intracranially: Experiments in Search of a Treatment for Parkinson's Disease. By LARS OLSON, ERIK-OLOF BACKLUND, WILLIAM FREED, MARIO HERRERA-MARSCHITZ, BARRY HOFFER, ÅKE SEIGER, and INGRID STRÖMBERG.....	105
Neurogenesis and Plasticity of the Olfactory Sensory Neurons. By P. P. C. GRAZIADEI and G. A. MONTI GRAZIADEI.....	127
Neuronal Replacement in Adulthood. By FERNANDO NOTTEBOHM...	143

<sup>a</sup> This volume is the result of a conference entitled Hope for a New Neurology, which was held in New York, New York on April 16-18, 1984 under the sponsorship of the Institute for Child Development Research.

Neuron Production in the Hippocampus and Olfactory Bulb of the Adult Rat Brain: Addition or Replacement? <i>By</i> SHIRLEY A. BAYER .....	163
Formation and Turnover of Neurons in Young and Senescent Animals: An Electronmicroscopic and Morphometric Analysis. <i>By</i> MICHAEL S. KAPLAN .....	173
DNA Synthesis and Cell Division in the Adult Primate Brain. <i>By</i> PASKO RAKIC .....	193
Neurogenesis in Adult Vertebrate Spinal Cord <i>in Situ</i> and <i>in Vitro</i> : A New Model System. <i>By</i> MARILYN J. ANDERSON and STEPHEN G. WAXMAN .....	213
Index of Contributors .....	235
Subject Index .....	237

The New York Academy of Sciences believes that it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the participants in the reported conferences are their own and not necessarily those of the Academy. The Academy has no intent to influence legislation by providing such forums.
